## SUMMARY

---

Software Engineer with nearly two years building and maintaining full-stack enterprise applications across .NET, C#, PHP, JavaScript, and SQL. Promoted from Junior within seven months; contributed to 14 production deployments, including 2 cloud migrations to AWS. Agile practitioner who ships reliably under deadline, mentors teammates, and ramps quickly on new stacks.

## EXPERIENCE

---

**Amdocs** Ortigas, Pasig, Metro Manila

**Software Engineer** January 2025 – March 2026

- Delivered an end-to-end full-stack enhancement to a live enterprise product within a 36 man-day deadline, owning architecture, development, testing, and deployment.
- Served as primary backend developer across multiple concurrent projects, building services in .NET, C#, PHP, SQL, and JavaScript aligned to evolving business requirements.
- Shipped 11 production deployments across 2025–2026 and provided post-deployment support on 4 releases, sustaining one for roughly three months given system scale.
- Mentored 2 new hires through code reviews and technical guidance; scoped and negotiated requirements with project managers across Agile ceremonies and sprint reviews.

**Junior Software Engineer** June 2024 – December 2024

- Contributed to a large-scale cloud migration, moving legacy components to core AWS services across 2 cloud-migration deployments.
- Developed and maintained application features in .NET and JavaScript within cloud-enabled architectures, meeting performance, reliability, and security standards.
- Worked within enterprise Agile workflows and CI/CD pipelines through full production release.

## EDUCATION

---

**Lyceum of Alabang** 2019 – 2023

Bachelor of Science in Computer Engineering — Dean's List · GPA 1.75 (90–92%)

**Relevant coursework:** Data Structures & Algorithms, Object-Oriented Programming, Database Management, Software Development, Web Development, Project Management.

## TECHNICAL SKILLS

---

**Languages:** C#, Java, Python, PHP, JavaScript, SQL, C++

**Frameworks & Libraries:** .NET, Laravel, React.js, Node.js, jQuery, Bootstrap, REST APIs

**Cloud & DevOps:** AWS (EKS, S3, CloudWatch, Elastic Beanstalk), Kubernetes, CI/CD pipelines, Git, cloud migration

**Databases:** SQL, database design, ORM, query optimization

**Testing & QA:** Unit testing, test automation, Selenium, Postman, manual testing

**Methodologies:** Agile/Scrum, SDLC, OOP, enterprise release management, Lean Six Sigma (Yellow Belt)

## CERTIFICATIONS & PROFESSIONAL DEVELOPMENT

---

Agentic Development using Cursor — Amdocs (CBS PSU) Jan 2026

Project Management Fundamentals (MOOC) — Amdocs Sep 2025

Agile & Scaled Agile Fundamentals — Amdocs Jan 2025

ASEAN Youth for Digital Action (AYDA) — 189 hrs Jan 2025

AWS re/Start — 300 hrs: Linux, Python, networking, security, core AWS Oct 2024

Lean Six Sigma Yellow Belt (Best Presenter) — Elevate Jul 2023

Full-Stack Web Development Bootcamp, 16 wks (Best in Capstone, QA) — Village88 Apr 2023
